Announcement

Hi Sharks, it's Mental Health awareness this week! Did you know..

Technology addiction is an uncontrollable urge to use the internet or other electronic devices that hinders the day-to-day life of an individual. It is a collective term for internet addiction, excessive social media use, video games, online gambling, and excessive use of smartphones and other devices. An over-dependence on technology can significantly impact teenagers' lives. We need technology to survive in a modern social world, but an addiction to technology can also be socially devastating. Don't forget to unplug during the day and take a break!
