Special Rate

\$40.00/participant (tax incl)

This rate is based on a minimum of 15 participants

To: The "Chair" Pro-D Committee

The Ropes Course located at UBC is offering a special Pro-D workshops.

The Ropes Course has been facilitating group challenges using experiential learning for well over 20 years. This time has been used to develop a highly effective series of fun interactive activities with powerful results ("Ah Ha" moments). Each activity is discussed (debriefed) with a predetermined focus provided by you, the learning is then extrapolated to the classroom.

Your participation in this series of group challenges will enhance your team but also enhance individual life skills.

We're sure this workshop will have a positive impact on all participants; however we encourage you to take it a step further and utilize some of these activities in the School. If you decide that a Challenge Course experience is something your students will benefit

from, please book with us....that is why we are offering a Pro D day at a reduced rate.
